Skills

DevOps & Cloud Operations

Kubernetes, Helm, Elasticsearch...

Design & Architecture

Technology selection and integration

Software Quality

Clean/secure coding, NFR, test automation...

Building Teams & Organizations

Hiring, process improvement & governance...

AI Models & Automation

PyTorch, LangChain, n8n...

Education

2002: Engineering Degree, CentraleSupélec Paris-Saclay (Shanghai #13 global, #1 France)
1997: Science Baccalauréat with honors

Awards

- 2011: AppJam award for CheckMyTrip
- 2010: Amadeus India "Best Manager" award

Entrepreneurship

- 2026: **MeshMind** 🔗 - AI 3D Model Generator
- 2025: **Makeit.rw** 🔗 - Rwanda's first on-demand 3D printing service!
- 2014: **HealthWallet**, the first iOS app for personal medical records from MS Healthvault (retired)

Hobbies

- Photography | Portfolio 🔗
- Traveling | 60 countries
- Hiking | Kilimanjaro, Kinabalu, Mt Kenya...
- Running | Marathon 3h34
- Coding | contribs to 10+ OSS projects
- 3D Printing & modeling | Portfolio 🔗

Summary

International leader with 25 years in Software Development, in technology and management roles, with a focus on building teams

Work experience

2020 - 2026

Director of Engineering, One Acre Fund

🇷🇼 Kigali, Rwanda

On a mission to restructure the tech team, modernize legacy tools, and support digital transformation and AgTech strategy

- **Built/reorganized the team** (from ~10 to ~65 engineers) introducing new roles (business analysts, project managers) and improving DEI and engagement metrics
- Led the **redesign of the entire Tech stack of legacy solutions** to an **open-source cloud-based stack** (Odoo | Fineract | Keycloak | Payment Hub | ODK) for retail & mobile sales, payments and credits, CRM features, rolled out to 8 African countries (400 shops, 2M$ sales)
- Rolled out modern **BI & analytics stack**: Snowflake | Airbyte | Superset
- Built the **DevOps function**, introducing CI/CD (GitHub Actions), moved to cloud operations (Helm | k8s, 500+ containers) with observability (Elasticsearch | OpenTelemetry) and secure coding practices

2016 - 2019

Head of Bespoke Developments APAC, Amadeus

🇹🇭 Bangkok, Thailand

Took over a distributed team of ~50 developers across APAC to lead them through a period of intense transformation:

- **Geographic rationalization** (7 to 3 sites)
- Complete **devops overhaul** (0 to ~60% automation in 1 year)
- **Stack modernization** (Docker, Angular)

2012 - 2016

Senior Manager, Flight Management, Airport IT, Amadeus

🇫🇷 Sophia-Antipolis, France then 🇸🇬 Singapore

Heading development of core components related to AODB and flight data processing and display (planning, operations, history).

- **Assembled highly recognized teams**, from 8 to 45+ members in France and India
- Most modules went **from scratch to UAT within 6 months**!
- Moved to Singapore following the acquisition of UFIS, which I helped integrate in terms of infrastructure, processes and technology, reporting to the CEO
- Rolled out modern processes and tools

2008 - 2012

Manager, Ness Technologies (for Amadeus)

🇮🇳 Bangalore, India

Contributed to the founding of the first development center for Amadeus in India, in various technical and managerial roles, helping it grow from 20 to 500+ over 5 years.

- Oversaw IT **infrastructure integration** with Amadeus
- Provided general coaching, technology directions, networking and project management practices to local teams
- Instrumental in recruitment effort
- Key role in the launch of several high-profile projects, in particular leading our first **Mobile Competency Center**

2002 - 2008

DevOps Engineer, then Architect, Amadeus

🇫🇷 Sophia-Antipolis, France

Technical consultancy and coordination for large cross-division projects.

Main Certifications

Stanford ONLINE — Deep Generative Models XCS236 — Certificate of Achievement — 2025

Elastic Certified Engineer — 2020

Certified kubernetes Administrator — 2019
